09/13 – Session 7 The Sword of the Spirit

A solar eclipse is set to pass over the United States on August 21.

It's a big deal because one hasn't been visible from the continental United States in 37 years and one hasn't passed over the country in almost 100 years.

A solar eclipse happens when the moon passes between the Sun and the Earth, blocking out a significant chunk of the Sun's rays.

So while this may be a strange occurrence, it's no secret to God or the authors of the Bible. In fact, many believe that God uses signs and wonders in the heavens to communicate with His people.

***At noon, darkness came over  
the whole land until three  
in the afternoon.***

***Mark 15:33***
